

Ibexis Life & Annuity Insurance Company®

FIA Plus®

About Ibexis®

A leading retirement services company providing fixed annuities

Backed by financial strength, dedicated service and secure technology

Partnering with top insurance agents and financial professionals

Founded in 1937

45

Licensed in 45 states and the District of Columbia

Helping clients retire with financial confidence, comfort and stability.

In times of economic volatility, consumers may demand more secure ways to grow their wealth. Fixed annuities can offer them safe and secure opportunities for long-term wealth accumulation without the risk of losing their hard-earning savings.

Ibexis focuses on fixed annuity products with both the familiar features consumers look for and new, innovative options that may better serve client financial needs now and in the future.

Excellent Financial Strength Rating

A- "Excellent" with a Stable Outlook

Based on our balance sheet strength, operating performance, management expertise and enterprise risk management.

Rated by A.M. Best, the world's first and largest credit rating agency in the insurance industry.

Our History

Originally established as Sunset Life Insurance Company of America (SSL) in 1937, our company has a long history of helping Americans build and preserve their wealth. We have remained resilient through decades of different economic cycles, carrying on our legacy today—now as Ibexis Life & Annuity Insurance Company®.

Experienced Leadership

Ibexis is led by a seasoned management team, each with an average of nearly 25 years experience across insurance and related industries.

Our Asset Manager | INVESTCORP

Ibexis has entered into a dedicated asset management agreement with [Investcorp Insurance Solutions](#) (“IIS”). IIS is a wholly owned subsidiary of leading global investment manager, Investcorp. The firm specializes in alternative investments across private equity, real estate, credit, absolute return strategies, GP stakes, infrastructure and insurance asset management. Today, Investcorp manages \$50 billion in assets, including assets managed by third party managers. Investcorp previously owned brands such as Tiffany & Company, Gucci and Saks Fifth Avenue. Their trusted, long-term backing and 40-year track record of investing in North America allows Ibexis to maintain financial stability and offer innovative products at competitive rates for the foreseeable future.

The Benefits of a Fixed Indexed Annuity

For many individuals, retirement is a new chapter in life.

Fixed indexed annuities (FIAs) can be powerful retirement savings vehicles that protect the policyholder's principal no matter what happens in the market or economy—while still offering the potential for growth linked to the performance of an external index.

Here's how a fixed indexed annuity can help an individual reach their goals for retirement, whatever those might be:

Principal Protection

Contract owners can enjoy full principal protection from downside market risk.

Upside Potential

Growth is based on interest credits and tied to the performance of an external index.

Tax Deferral

FIAs provide accumulation that's fully tax-deferred until funds are withdrawn.

Liquidity

A portion of initial premium and interest credits may be withdrawn annually without penalties or adjustments.

Guarantees

A fixed rate of guaranteed interest may be selected, and contracts have minimum guaranteed values.

Death Benefit

Your funds can be passed along to a beneficiary and potentially avoid probate.

At Ibexis®, we are dedicated to providing simple, innovative solutions that help our clients preserve and grow their hard-earned wealth so they can focus on what matters most.

Key Terms:

Annual Declared Rate

A fixed percentage, declared annually, that determines the positive portion of a Tracking Value Adjustment for allocations to this strategy.

Bailout Feature

If the S&P 500® Annual Point to Point with Cap Rate ever renews below the corresponding declared Bailout Rate, contract owners have up to 30 days to withdraw any amount up to the full Tracking Value without withdrawal charges or market value adjustments.

Cap

The maximum percentage that can be applied to the Tracking Value as a Tracking Value Adjustment.

Death Benefit

Upon death, the Tracking Value is paid to the beneficiary. Withdrawal Charges, Market Value Adjustments, and Premium Bonus Recapture Amounts (if applicable to the product) do not apply. If the Owner's spouse is the sole beneficiary, the spouse may continue the policy in his or her own name.

Floor

A percentage that determines the maximum negative Tracking Value Adjustment. Floors will be made available for allocation if they are greater than your specified Floor Limit and if the maximum negative Tracking Value Adjustment is less than or equal to the Tracking Value Gains.

Floor Limit

Floor Limit elections will automatically adjust the selected Floor to the lowest available Floor option on any contract anniversary.

Lower Floor elections provide higher upside potential but introduce potential negative Tracking Value Adjustments, including any Premium Bonus.

Floor Limits available include: 0%, -2.5%, -5%, -10%, -15%

Index-Linked Tracking Value Segment

A method for calculating Tracking Value Adjustments. Each Index-Linked Tracking Value Segment is comprised of an Index with a Floor, Cap and Participation Rate. You may allocate to any available Segment.

Participation Rate

The percentage of the change in the index that is used to calculate the Tracking Value Adjustment.

Penalty-Free Surrender and Withdrawals

After the first contract anniversary, 10% of the Contract Value is available for withdrawal free of any Withdrawal Charges, MVA, or Premium Bonus Recapture Amounts (if applicable to the product).

Any time a withdrawal exceeds the Penalty-Free Withdrawal Amount, the excess will incur Withdrawal Charges, MVA, or Premium Bonus Recapture Amounts (if applicable to the product).

Required Minimum Distribution (RMDs) are mandatory withdrawals from qualified contracts. RMDs are not available during the first year and must be processed by the current carrier prior to any transfer. Thereafter, RMDs will be treated as Penalty-Free Withdrawals up to the RMD amount, even if it exceeds the stated Free Withdrawal Amount.

Periodic Automatic Lock

An interest credit that occurs at the end of the surrender term equal to the Tracking Value Gains. A Periodic Automatic Lock will also cause the Tracking Value at Risk (TVAR) to be reduced to zero.

Premium Bonus

The Premium Bonus rider may be elected at issue and is the initial premium multiplied by a declared percentage. If the Premium Bonus rider is elected, contract owners may receive lower cap rate or lower participation rate.

Strategy Value

Premiums paid plus any Interest Credits, minus any withdrawals.

Surrender Value

On any given date, the surrender value equals the greater of 1) the Tracking Value minus any withdrawal charges; or 2) the minimum guaranteed surrender value.

Tracking Value

The notional amount reflecting the premium allocated to this strategy, plus Tracking Value Adjustments minus withdrawals from Tracking Value. Your Tracking Value will never fall below your Strategy Value.

Tracking Value Adjustments

Positive or negative amounts applied to an Index-Linked Tracking Value Segment.

Tracking Value Gains

Equal to the Tracking Value minus the greater of Strategy Value or the Strategy Guaranteed Minimum Value. Tracking Value Gains will never be negative.

Vested Value

The Tracking Value is fully vested in all years as the current Vesting Percentage is equal to 100%. The Vested Value is equal to the Tracking Value.

Withdrawal Charge

The withdrawal charge will be imposed against certain withdrawals. If a partial withdrawal plus the sum of all prior withdrawals within a contract year exceeds the Free Withdrawal Amount, the amount of the partial withdrawal in excess of the Free Withdrawal Amount is subject to Withdrawal Charges, MVA and Premium Bonus Recapture Amounts (If applicable to the product).

FIA Plus[®] provides the benefits of traditional Fixed Indexed Annuities, *plus* it adds flexibility to allow contract owners to manage their risk preferences over time.

Protect initial premium, maximize growth potential, and retire with additional confidence knowing these features and benefits are available in FIA Plus[®].

Safety

Even in volatile markets or a down economy, any premiums paid into the Ibexis[®] FIA Plus[®] are always protected from market loss.

Plus Opportunity

The “Plus” in FIA Plus is a new and unique way to accumulate value in a Fixed Index Annuity. As gains in the Tracking Value increase, owners can choose to use those gains to pursue higher upside potential by taking on a “Floor” in their account, which means they could receive higher participation rates or cap rates in exchange for risking some of those Tracking Value Gains. This can be adjusted as often as annually to allow for a more customized experience based on the client’s outlook and risk tolerance. Regardless of what Floor is chosen, the client’s premium can never decrease.

These features are not available in a traditional FIA – that’s what makes the FIA Plus[®] a unique and powerful retirement planning tool.

Powerful Growth and Accumulation

Ever changing client needs, along with market volatility, changing interest rates, and economic uncertainty have made FIAs an ideal retirement savings product for many individuals. The FIA Plus® is an accumulation-focused FIA that offers tax-deferred growth potential and an innovative design.

Choose an initial premium allocation

Index-Linked Strategy

Initial premium may be allocated to the Index-Linked Strategy and any of the index options available or Annual Declared Rate, in any combination.

Reallocations may be made on any contract anniversary between the available index strategies. Also, the Floor can be adjusted by changing the Floor Limit, which is the lowest floor allowed for allocation by the policyholder.

Annual Declared Rate Strategy

Initial premium may be allocated to the Annual Declared Rate Strategy and will earn a stated annual interest rate guaranteed for one year. Interest in the Annual Declared Rate Strategy is credited annually to the Tracking Value. Initial allocations and any transfers to the Annual Declared Rate Strategy may be reallocated to the Index-Linked Strategy on any contract anniversary.

The contractual minimum amount for transfers within the Index-Linked Strategy is \$2,000.

Index Options

Ibexis® FIA Plus® includes an industry benchmark index with the S&P 500® crediting option and has also partnered with top-tier financial institutions to create cutting-edge, proprietary index options available exclusively through ibexis.

Annual Declared Rate

Each year, allocations may also be made to the Annual Declared Rate Strategy.

This strategy includes a fixed percentage, declared annually, that determines the positive portion of a Tracking Value Adjustment for any allocations to this strategy.

BofA U.S. Strength Fast Convergence Index with Participation Rate

Developed in collaboration with Bank of America, this index applies BofA's patented Fast Convergence technology to the Russell 1000® Total Return Index, an equity index tracking the 1,000 largest U.S. listed stocks by market cap.

The Index is designed to provide access to U.S. equity growth while rebalancing during the trading day to target 12.5% annualized volatility.

Ticker: BOFARFCC

BlackRock® U.S. Equity Bitcoin Balanced Risk 12% Index with Participation Rate

The BlackRock® U.S. Equity Bitcoin Balanced Risk 12% Index offers investors a unique combination of broad U.S. equity exposure and cryptocurrency-linked growth potential through the iShares® Core S&P 500 ETF and the iShares® Bitcoin Trust ETF. By pairing traditional equity exposure with access to the iShares® Bitcoin Trust ETF—one of the fastest-growing ETFs in history—the index seeks to capture diversified growth opportunities while dynamically managing risk to maintain a 12% target volatility.

Ticker: BUEBTC12

S&P 500® Annual Point to Point with Cap

The S&P 500® is one of the most followed equity indices in the world.

It includes 500 large-cap companies that are traded domestically and captures approximately 80% of the market capitalization of United States' equity markets.

Ticker: SPX

HSBC AI Global Tactical Index with Participation Rate

Offered in partnership with HSBC, this index leverages the artificial intelligence of Amazon & Amazon Web Services (AWS) to gain an informational advantage in the index investment process.

The index uses AWS to analyze and learn from data thousands of times faster than humans, enabling the index to automatically adapt its approach as market dynamics change and new information becomes available.

Ticker: HSIEAIGT

S&P 500® Engle 16% VT TCA Index with Participation Rate

The S&P 500® Engle 16% VT TCA Index, provides exposure to E-mini S&P 500 futures while employing an intraday volatility control mechanism designed to maintain a 16% volatility target. The strategy is based on the forecasting methodology developed by Nobel Laureate Professor Robert F. Engle.

Ticker: SPETC16E

Index-Linked Strategy Example

The tables below show examples of the available options for a contract owner in two hypothetical, \$100,000 initial premium, FIA Plus[®]10 and FIA Plus[®]10 with Premium Bonus contracts over the first 5 years. As outlined, as the Tracking Value increases each year, additional Floors become available to the contract owner, if they choose to increase their “Floor Limit.” The Premium Bonus can also be leveraged immediately to move into lower Floors.

Enhanced Flexibility With The FIA Plus[®] Index-Linked Strategy*

	Account Value	Tracking Value	Gains Available	0% Floor	-2.5% Floor	-5% Floor	-10% Floor	-15% Floor
Year 1	100,000	100,000	0.0%	Available	Not Available	Not Available	Not Available	Not Available
Year 2	100,000	111,250	-10.1%	Available	Available	Available	Available	Not Available
Year 3	100,000	110,442	-9.5%	Available	Available	Available	Not Available	Not Available
Year 4	100,000	120,972	-17.3%	Available	Available	Available	Available	Available
Year 5	100,000	144,465	-30.8%	Available	Available	Available	Available	Available

Enhanced Flexibility with the FIA Plus[®] 10 with Premium Bonus Index-Linked Strategy*

	Account Value	Tracking Value	Gains Available	0% Floor	-2.5% Floor	-5% Floor	-10% Floor	-15% Floor
Year 1	100,000	116,000	-13.8%	Available	Available	Available	Available	Not Available
Year 2	100,000	129,213	-22.6%	Available	Available	Available	Available	Available
Year 3	100,000	128,274	-22.0%	Available	Available	Available	Available	Available
Year 4	100,000	140,505	-28.8%	Available	Available	Available	Available	Available
Year 5	100,000	167,791	-40.4%	Available	Available	Available	Available	Available

*Example shown for illustrative purposes only. “Account Value” is used in place of “Strategy Value” and “TVAR” has been replaced with “Gains Available” for column headers. If the Premium Bonus rider is elected, contract owners may receive lower rates compared to the non-Bonus version of FIA Plus.

Tracking Value at Risk (TVAR)

TVAR is a way to express Tracking Value Gains as the percentage reduction in the Tracking Value that would bring Tracking Value Gains to zero. In that case, the Tracking Value would equal the Strategy Value. TVAR is only used to determine Floor availability. Contract owners may never be allocated to a Floor lower than TVAR.

Floor Limit

A contract owner can elect a Floor Limit at issue or intra-contract with the required prior written notice to Ibexis. Floor Limit elections will automatically adjust the selected Floor to the lowest available Floor option that is greater than the Floor Limit on any contract anniversary.

FIA Plus: 0% Floor Limit

How it Works

The chart below shows a contract owner who sets their Floor Limit to 0% at issue and leaves it there for the duration of the 10-year FIA Plus® contract.

- The light blue shaded area represents the Strategy Value, which is based on the initial premium amount.
- The light green shaded area represents the Tracking Value, or performance of the initial premium and selected index allocations, over time. The Tracking Value can move up or down annually, based on the index selections and the applicable crediting rates.

When using the 0% Floor Limit in any year, owners will have full downside protection on both initial premium and Tracking Value Gains (through the Tracking Value)—as you can see from the graph below. As the Tracking Value increases, the Tracking Value Floor mirrors any upward movements as it remains in the 0% Floor Limit.

Because an Annual Lock has not been exercised, the Strategy Value remains equal to the initial premium amount, allowing for access to negative Floor strategies. The Tracking Value is also available for Withdrawal, Surrender, Annuitization and Death Benefit.

Example based on initial premium of \$100,000 and S&P 500® return data from 1/1/2012–12/31/2021. Assumed annual Floors and Cap Rates of [0%, 10%] [-2.5%, 12%], [-5%, 14%], [-10%, 18%] and [-15%, 23%] on the S&P 500® Annual Point with Cap Rate crediting strategy. This example uses the 0% Floor cap rate of 10% throughout the 10-year term. The chart shown above is provided solely to demonstrate how various contract features would work in hypothetical scenarios. It is not intended to illustrate accumulation of contract values.

* A Periodic Automatic Lock occurs at the end of the 10-year term which causes the Strategy Value to equal the Tracking Value via interest credit.

* Past index performance is not indicative of future performance.

FIA Plus: -15% Floor Limit

How it Works

In this situation, a contract owner has elected a -15% Floor Limit at contract issue. As the Tracking Value increases each year with Tracking Value Gains, or positive index movements, additional Floors become available for the contract owner, which carry higher upside potential. The contract will automatically reallocate to the lower floors as they become available.

The dotted line, or Tracking Value Floor, represents the minimum Tracking Value a contract owner would receive in the event that the index performance falls to or below the Floor. As you can see, there can be both positive and negative adjustments to the Tracking Value over time in this more “risk-on” approach. However, the contract owner has significantly higher upside potential with the -15% Floor Limit election.

Example based on initial premium of \$100,000 and S&P 500® return data from 1/1/2012–12/31/2021. Assumed annual Floors and Cap Rates of [0%, 10%] [-2.5%, 12%], [-5%, 14%], [-10%, 18%] and [-15%, 23%] on the S&P 500® Annual Point with Cap Rate crediting strategy. The chart shown above is provided solely to demonstrate how various contract features would work in hypothetical scenarios. It is not intended to illustrate accumulation of contract values.

* A Periodic Automatic Lock occurs at the end of the 10-year term which causes the Strategy Value to equal the Tracking Value via interest credit.

* Past index performance is not indicative of future performance.

Additional Features

Withdrawal and Surrender Charges

The Withdrawal Charge will be imposed against certain withdrawals. If a partial withdrawal plus the sum of all prior withdrawals within a contract year exceeds the Free Withdrawal Amount, the amount of the partial withdrawal in excess of the Free Withdrawal Amount is subject to Withdrawal Charges, MVA and Premium Bonus Recapture. Amounts (if applicable to the product). There is no Free Withdrawal Amount in the first Contract Year.

Withdrawal Charge Schedule - All States Except CA

Contract Year	1	2	3	4	5	6	7	8	9	10
FIA Plus 5	9.00%	9.00%	8.00%	7.25%	6.25%	N/A	N/A	N/A	N/A	N/A
FIA Plus 7	9.00%	9.00%	8.00%	7.25%	6.25%	5.00%	4.00%	N/A	N/A	N/A
FIA Plus 10	9.00%	9.00%	8.00%	7.25%	6.25%	5.00%	4.00%	3.00%	2.00%	1.00%

Withdrawal Charge Schedule - CA Only

Contract Year	1	2	3	4	5	6	7	8	9	10
FIA Plus 5	8.30%	8.20%	7.25%	6.25%	5.00%	N/A	N/A	N/A	N/A	N/A
FIA Plus 7	8.30%	8.20%	7.25%	6.25%	5.00%	4.00%	3.00%	N/A	N/A	N/A
FIA Plus 10	8.30%	8.20%	7.25%	6.25%	5.00%	4.00%	3.00%	2.00%	1.00%	0.00%

Penalty-Free Withdrawals

Penalty-Free Withdrawals are not permitted in the first contract year, and any withdrawals taken during that time may be subject to a Withdrawal Charge. Withdrawal Charges, MVA and Premium Bonus Recapture. Amounts (if applicable to the product). Each Contract Year following the first Contract Year, you may take partial withdrawals of up to 10% of the of the Tracking Value without incurring Withdrawal Charges, MVA and Premium Bonus Recapture. Amounts (if applicable to the product).

Penalty-Free Withdrawal Schedule

Contract Year	1	2	3	4	5	6	7	8	9	10
FIA Plus 5	0%	10.00%	10.00%	10.00%	10.00%	N/A	N/A	N/A	N/A	N/A
FIA Plus 7	0%	10.00%	10.00%	10.00%	10.00%	10.00%	10.00%	N/A	N/A	N/A
FIA Plus 10	0%	10.00%	10.00%	10.00%	10.00%	10.00%	10.00%	10.00%	10.00%	10.00%

Death Benefit

Upon death, the Tracking Value is paid to the beneficiary. Withdrawal Charges, MVA, and Premium Bonus Recapture Amounts (if applicable to the product) do not apply. If the Owner's spouse is the sole beneficiary, the spouse may continue the policy in his or her own name.

Premium Bonus

The Premium Bonus rider may be elected at issue and is the initial premium multiplied by a declared percentage. The Premium Bonus amount is added to the Index-Linked Tracking Value at Contract issue. The Premium Bonus can be used to immediately unlock and access additional Floor options, which possess higher index-linked rates. If a Floor Limit is selected, the Premium Bonus will be exposed to losses down to the Floor limit selected. If the Premium Bonus rider is elected, contract owners may receive a lower cap rate or lower participation rate.

Bonus Recapture

The Bonus Recapture amount will be deducted as a charge against certain withdrawals from the contract when the Premium Bonus rider is selected. The charge will be based on a percentage of the Premium Bonus and any interest earned on that amount. The percentage will be based on the Bonus Recapture Schedule shown below.

Bonus Recapture Schedule - All States Except CA

Contract Year	1	2	3	4	5	6	7	8	9	10	11+
FIA Plus 5	100%	93.50%	84%	72.75%	62.75%	N/A	N/A	N/A	N/A	N/A	N/A
FIA Plus 7	100%	93.50%	84%	72.75%	62.75%	54%	43.50%	N/A	N/A	N/A	N/A
FIA Plus 10	100%	93.50%	84%	72.75%	62.75%	54%	43.50%	33%	22.25%	11%	N/A

Bonus Recapture Schedule - CA Only

Contract Year	1	2	3	4	5	6	7	8	9	10	11+
FIA Plus 5	90%	80%	70%	60%	50%	N/A	N/A	N/A	N/A	N/A	N/A
FIA Plus 7	90%	80%	70%	60%	50%	40%	30%	N/A	N/A	N/A	N/A
FIA Plus 10	90%	80%	70%	60%	50%	40%	30%	20%	10%	0%	N/A

Required Minimum Distributions (RMDs)

RMDs are mandatory withdrawals from qualified contracts. RMDs in the first year should be processed by the current carrier prior to any transfer. Thereafter, RMDs will be treated as Penalty-Free Withdrawals up to the RMD amount, even if it exceeds the stated Free Withdrawal Amount.

Extended Care & Terminal Illness Waivers

The Nursing Home or Hospital Confinement Rider is available after the first contract anniversary. A contract owner must be confined to a Nursing Home or Hospital for 90 consecutive days.

The Terminal Illness Rider is available after the first contract year. The diagnosis must be made by a physician that the death will occur in 12 months or less.

Riders are not available in all states.

Annuitization

After the first contract year, the Withdrawal Value can be annuitized under any annuity options outlined in the contract. Withdrawal Charges, MVA, and Premium Bonus Recapture Amounts (if applicable to the product) will apply to annuitization during the Withdrawal Charge Period.

Disclosures

This brochure is for informational purposes only. Review the Contract for product details and benefits, including all restrictions and limitations. Restrictions apply. Neither Ibexis® nor its representatives provide legal or tax advice. Consult with your attorney or tax advisor for additional information. Ibexis' products are NOT: 1) a deposit; 2) FDIC or NCUA insured; 3) insured by any federal government agency; or 4) guaranteed by a bank, savings association or credit union. Guarantees are based on the financial strength and claims-paying ability of Ibexis. This brochure is for annuity policy form number ICC22_FIA_0922 with Contract Data Pages ICC23_CDP_0124. Application form number ICC23_ILAIC_FIA_PLUS_BONUS_APP. Rider form numbers ICC23_FIA_ILIO_1223, ICC23_R_WWCR_1123, ICC23_R_MVA_1223, ICC23_PBR_1223_v1, ICC_PBR_1223_v2, ICC22-R-NHHCW, ICC22-R-TIW, FIA_0922_CA TIO-SD-0624, TIO-UNI-0624, ILAIC_FIA_PLUS_BONUS_APP_CA, PBR_0624_v1_CA, PBR_0624_v2_CA, R_WWCR_1123_CA, CDP_0124_CA, and FIA_ILIO_1223_CA. Withdrawals may be taxable and subject to tax penalties if made before age 59-1/2. Tax-deferral offers no additional value if the annuity is used to fund a qualified plan, such as an IRA or 401k and may not be available if the owner of the annuity is not a natural person such as a corporation or certain types of trusts.

MVA does not apply in CA.

HSBC, AiGT, and “HSBC AI Global Tactical Index” (collectively, the “AiGT Marks”) are trademarks or service marks of HSBC and have been licensed by HSBC and sub-licensed by Ibexis Life & Annuity Insurance Company (the “Company”) for use in a fixed indexed annuity offered by the Company. The fixed indexed annuity is not, in whole or in part, sponsored, structured, priced, endorsed, offered, sold, issued or promoted by HSBC, Solactive or any of their affiliates. HSBC’s only relationship to the Company is the licensing of the AiGT Index and AiGT Marks for certain purposes. Solactive’s only relationship to the Company is with respect to administering, calculating and publishing the AiGT Index. HSBC and Solactive shall not have any liability with respect to a fixed indexed annuity in which an interest crediting option is based on the AiGT Index and are not liable for any loss relating to the fixed indexed annuity, whether arising directly or indirectly from the use of the AiGT Index, its methodology, any AiGT Mark or otherwise. Neither HSBC or Solactive have any obligation to take into consideration any of the needs of the Company or any of the owners, annuitants or beneficiaries of the fixed indexed annuity in designing, calculating, administering or licensing the AiGT Index.

Disclosures

NONE OF HSBC, SOLACTIVE OR THEIR SUPPLIERS GUARANTEES THE ACCURACY, ADEQUACY, TIMELINESS, COMPLETENESS OR AVAILABILITY OF THE AiGT INDEX OR ANY COMPONENT THEREOF OR DATA INCLUDED THEREIN, OR THAT NO ERROR, OMISSION, DELAY OR INTERRUPTION WILL EXIST THEREIN. NONE OF HSBC, SOLACTIVE OR THEIR SUPPLIERS MAKES ANY REPRESENTATION OR WARRANTY, AND EACH OF HSBC, SOLACTIVE AND THEIR SUPPLIERS EXPRESSLY DISCLAIMS ALL REPRESENTATIONS AND WARRANTIES, EXPRESS OR IMPLIED, INCLUDING, WITHOUT LIMITATION, THOSE REGARDING (I) MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE OR USE, AND (II) THE ADVISABILITY OF ANY PERSON INVESTING IN THE FIXED INDEXED ANNUITY.

No purchaser, seller or holder of the fixed indexed annuity, or any other person or entity, should use or refer to any AiGT Mark or other HSBC trade name to sponsor, endorse, market or promote the fixed indexed annuity without a license from HSBC. Under no circumstances may any person or entity claim any affiliation or association with HSBC or Solactive without the prior written permission of HSBC or Solactive.

In calculating the performance of the AiGT Index, HSBC deducts a servicing cost of 0.50% per annum, calculated on a daily basis. Such costs may vary over time with market conditions. These costs reduce the potential positive change in the AiGT Index and thus the amount of interest that will be credited to the fixed indexed annuity option based on the AiGT Index.

The volatility control applied by HSBC may reduce the potential positive or negative change in the AiGT Index and thus the amount of interest that will be credited to the fixed indexed annuity option that is based on the AiGT Index.

Nothing provided herein should be construed as HSBC, Solactive or any of their suppliers providing tax, legal, or investment advice nor are HSBC, Solactive or any of their suppliers recommending engaging in any investment strategy or transaction.
