

PrimeStart Bonus 10TM

Fixed Index Annuity

Kick-start, recover, and accelerate
your retirement savings

To retire smart, know your risks

Americans use insurance to protect their most important assets—their home, their car, and their health—from a catastrophic event. At Delaware Life, we provide insurance to protect what is often your second biggest asset—your retirement savings.

So why insure your retirement savings? To **L.I.V.E.** the retirement you’re preparing for, you need to understand and plan for these key retirement risks: **Longevity, Inflation, Volatility, and Emotion**. Here’s why.

VOLATILITY RISK

When markets fluctuate, what does it take to recover from a market downturn? For instance, if your savings suffers a 20% loss, you need a 25% gain the next year just to break even.

► % of gain needed to break even ► % of loss

EMOTIONAL RISK

Anyone can emotionally react to volatility. Many investors react by buying when markets are high and selling when markets have dropped. That's the opposite of what a successful investment strategy should be.

MARKET HIGHS RESULT IN EMOTIONAL HIGHS³

PrimeStart Bonus 10™ can help kick-start, recover, and accelerate your savings

PrimeStart Bonus 10™ is a flexible premium fixed index annuity—an insurance product that is designed to help you meet your long-term retirement needs. It offers protection for your money against market downturns, with the opportunity for you to earn tax-deferred interest based on the performance of a specific market index, or a combination of indexes.

PrimeStart Bonus 10™ goes a step further, offering built-in, no-cost, value-add features to help you improve your short-term and long-term accumulation potential.

Kick-start, recover, and accelerate your savings

PrimeStart Bonus 10™ in action

The charts and table below illustrate a hypothetical example of how a \$100,000 initial contribution in the PrimeStart Bonus 10™ fixed index annuity can kick-start, recover, and accelerate your retirement savings. With built-in features like a 14% premium bonus (additional \$14,000) and the Lowest Starting Index Value, you are in a better position to:

- Boost your index growth when markets perform well.
- Potentially increase both the size and likelihood of index growth.

Harnessing the power of the Lowest Starting Index Value

An example of how a drop in the initial index value can impact growth with the Lowest Starting Index Value (Lowest 90 Days) feature.

First 90 Days

Comparison	Issue Date (6/1/2022)	Lowest Starting Index Value
Beginning Account Value	\$114,000	\$114,000
Beginning Index Value	4101.23	3666.77
End of Term Index Value	4221.02	4221.02
Gross Return	2.92%	15.12%
Net Return using a 9.00% cap	2.92%	7.00%
End of Term Account Value	\$117,329	\$121,980

Full One-Year Term

This chart is a representation of fixed index annuity growth under varying market/index conditions and is not meant to represent the performance of any Delaware Life fixed index annuity product. This chart assumes no fees, charges, or withdrawals are taken from the FIA during the illustrated period and reinvestment of dividends is not included. The hypothetical performance of the fixed index annuity, as illustrated, assumes a \$100,000 initial payment and a \$14,000 (14%) premium bonus, a cap of 7.0% (using a 1-Year Point-to-Point with Cap crediting option) and assumes no withdrawals or surrender charges during the period shown. Different index-based strategies and interest-crediting options may produce different results. The amount of index interest credited at the end of the term year may be limited by index rates. Guarantees are backed by the financial strength and claims-paying ability of Delaware Life Insurance Company (Zionsville, IN).

PrimeStart Bonus 10™ index account options

Most people recognize the importance of diversifying their investments. Diversification can serve as a growth engine, providing access to a wider variety of investments that may help grow your money in varying market conditions, and as a tool to help lessen volatility within a portfolio over time. Here are the different index options you have access to:

S&P 500®

Widely considered the leading benchmark of the U.S. equities market, the Standard & Poor's 500 Index includes 500 of the largest companies on the New York Stock Exchange and NASDAQ.

Goldman Sachs Canopy Index

Combines a regime-based asset allocation strategy with an alternative investment strategy through exposure to two portfolios. The index provides exposure to U.S. equities, duration-hedged inflation-linked bonds, US treasuries, gold, and broad commodities. It is subject to an 8% volatility control feature and a 0.5% annualized deduction rate.

Nasdaq-100 Intraday Elite 15%™ Index

Provides investors exposure to the Nasdaq-100 Total Return™ Index (XNDX™) while targeting a specified 15% volatility target. The index uses intraday values to adjust exposure up to 50% and capture significant swings that might not otherwise be reflected. It mitigates downside risk by rebalancing up to 3 times daily using a time-weighted average price (TWAP).

Franklin SG Select Index

Seeks to provide stable, consistent returns by implementing a responsive strategy that adapts its exposure to changing market environments. The index combines a robust equity allocation model designed by Franklin Templeton with a proprietary volatility control mechanism engineered by Société Générale that acts to further mitigate risk by maintaining an annual volatility of 5%.

S&P 500® Dynamic Intraday TCA Index

Aims to provide exposure to the S&P 500 through the use of E-mini S&P 500 futures, while applying an intraday volatility control and trend-following mechanism. The index rebalances up to 13 times daily using a time-weighted average price (TWAP).

BlackRock U.S. Equity Bitcoin Balanced Risk 12% Index

The index is designed to deliver exposures to the iShares Core S&P 500 ETF and the iShares Bitcoin Trust ETF, subject to a Target Volatility. The Index manages to a 12% Target Volatility by incorporating a cash constituent. The Index tracks the return of the weighted Index constituents, above the return on the Interest Rate.

First Trust Capital Strength® Barclays 10% Index

Provides exposure to U.S. equities and treasuries—selects 50 large-cap U.S. stocks in the NASDAQ and utilizes an equally weighted portfolio of four Barclays U.S. Treasury futures indexes to capture optimal risk-adjusted returns.

Index strategies and crediting options

With PrimeStart Bonus 10™, you can choose to allocate your money in one or a combination of strategies. The money you allocate to the index strategies has the potential to grow based on their underlying performance¹, measured from the beginning to the end of your 1-year term. This is called “point-to-point” crediting.

So, if your chosen index strategy rises, your account is credited with interest that represents a portion of the gain. If the index strategy falls, you may not receive any interest—but neither will you sustain any loss. Instead, any earnings from the previous year are “locked in” and protected.

Index strategies are available as standard or enhanced index accounts. Enhanced index accounts offer higher crediting rates, for an additional 1.00% annual fee, giving you the potential to grow your money even faster over time.

Strategy	Asset Classes	Crediting Options
S&P 500® Index	U.S. Equity	1-year Point-to-Point with Cap
		1-year Performance Trigger
		1-year Point-to-Point with Participation Rate
S&P 500® Dynamic Intraday TCA Index	U.S. Equity Futures	1-year Point-to-Point with Participation Rate
Nasdaq-100 Intraday Elite 15%™ Index	U.S. Equity Futures	1-year Point-to-Point with Participation Rate
Goldman Sachs Canopy Index	U.S. Equity and Treasuries	1-year Point-to-Point with Participation Rate
First Trust Capital Strength® Barclays 10% Index	U.S. Equity, Bonds and Commodities	1-year Point-to-Point with Participation Rate and Volatility Limit
Franklin SG Select Index	U.S. Equity and Treasuries	1-year Point-to-Point with Participation Rate, Boost and Knockout
BlackRock U.S. Equity Bitcoin Balanced Risk 12% Index	Cryptocurrency, U.S. Equity	1-year Point-to-Point with Participation Rate
1-year Fixed Rate	Fixed Income	Annual

¹ Index strategies may include limitations to growth experienced by an index by applying specific controls; for example, a Cap Rate, a Participation Rate or other applicable factors.

Precision Portfolios

A one-step, tailored approach to allocating your savings

In addition to individual indexes, you also have access to two turnkey, diversified multi-index portfolios called **Precision Portfolios**. They are constructed using set percentage allocations to the individual index strategies we offer from S&P, Nasdaq, Goldman Sachs, Franklin Templeton, and First Trust, coupled with an allocation to the fixed account. Available with either standard or enhanced crediting rates, they are designed to give you a one-step, tailored way to meet your retirement savings goals.

What are the differences between the two Portfolios?

Precision Portfolios give you the flexibility to choose how you allocate your savings. The option you choose is based on which one more closely matches your investment goals and risk tolerance. Here is what makes them unique:

- **Precision Core** focuses on foundational growth with a higher allocation to the fixed account to provide a guaranteed return and steady growth potential.
- **Precision Edge** focuses on momentum and growth with a balanced multi-index allocation designed to achieve enhanced long-term growth potential.

The Precision Portfolio allocation percentages shown above are for both standard and enhanced index accounts.

¹ Please note that you may only select one Precision Portfolio to allocate 100% of your premium payment. Precision Portfolios are only available at contract issue, and the allocation percentages will not change over time. If you select a Precision Portfolio allocation at contract issue, any additional premium payment you make will be allocated to the Fixed Account. At renewal, you can transfer the entire amount to the same Precision Portfolio allocation previously elected or keep it in the Fixed Account. Clients may reallocate out of a Precision Portfolio on any contract anniversary.

Access to your money

When you transition to retirement, PrimeStart Bonus 10™ gives you the flexibility to receive income in several ways, in addition to guaranteed lifetime income. If an unexpected situation arises where you need access to your money, you have options.

- 1 Free withdrawals:** you can take up to 10% of the total premium payments during the first contract year. After the first contract year, you may take up to 10% of the last contract anniversary value. Both options are free of surrender charges, any applicable Market Value Adjustment (MVA) and Premium Bonus Recapture.

You have the flexibility, should you need it, to take more than your free withdrawal amount. If you elect to withdraw more, please note that surrender charges, a MVA and a Premium Bonus Recapture may apply.

- 2 Turn your annuity into an income stream:** You also have the option to annuitize your contract. PrimeStart Bonus 10™ offers several annuity payout options, including income for life or for a specified period, for you, or you and your spouse (if you purchase a joint contract).

Surrender charge exceptions	
Required Minimum Distributions (RMDs)	If you are required to take a RMD, and that RMD is more than your free withdrawal amount, you may take the entire RMD without a surrender charge or MVA.
Nursing Home Waiver ¹	You may take a withdrawal from your annuity, after the first contract anniversary, without a surrender charge or MVA if you are confined to a hospital or nursing facility for at least 90 days, as long as the contract is purchased before your 76th birthday.
Terminal Illness Waiver ¹	After a period of one year, you may take a withdrawal from your annuity without a surrender charge or MVA to pay for hospice care as long as the contract is purchased before your 70th birthday.

Withdrawals of taxable amounts are subject to ordinary income tax and if made before age 59½, may be subject to a 10% federal income tax penalty. Withdrawals will reduce the account value and may result in a surrender charge, market value adjustment (MVA) and Premium Bonus Recapture. Distributions of taxable amounts from a nonqualified annuity may also be subject to an additional 3.8% federal tax on net investment income. Under current law, a nonqualified annuity that is owned by an individual is generally entitled to tax deferral. IRAs and qualified plans—such as 401(k)s and 403(b)s— are already tax-deferred. Therefore, a deferred annuity should only be used to fund an IRA or qualified plan to benefit from the annuity's features other than tax deferral. These include lifetime income, death benefit options, and the ability to transfer among investment options without sales or withdrawal charges.

¹ Must meet certain criteria. Subject to state availability. Please talk to your financial professional for details.

PrimeStart Bonus 10™ product summary

Core annuity features													
Issue ages	18–80												
Minimum initial premium	\$25,000 for both qualified and nonqualified money; Flexible premium deferred annuity

¹ Subsequent payments not permitted after any owner/annuitant has attained age 85.

² A portion of the premium bonus is returned to us if you withdraw more than your free withdrawal amount or begin annuity payments before the end of the surrender charge period.

³ With a non-rolling surrender charge, all payments are free from surrender charges at the end of the surrender charge period.

⁴ We may offer other options other than those listed. Please refer to the contract for details.

Delaware Life—a legacy of innovation

Delaware Life has decades of annuity innovations and brings you a long history and solid track record. This includes developing competitive products, delivering a seamless, efficient experience, and serving as an honest and reliable financial institution.

Delaware Life Insurance Company (Delaware Life) launched the first fixed index annuity (FIA) over 30 years ago. Born from our innovative spirit and expertise, this revolutionary product set a new standard to deliver retirement solutions for the issues facing a new generation of retirees.

Today, our original innovation has led to more than \$96 billion¹ in FIA sales industry-wide... and we haven't slowed down!

At Delaware Life, we are consistently:

- Leading and setting new standards in the industry
- Designing solutions to solve today's and tomorrow's complex retirement challenges
- Evolving our innovative industry-leading product suite

Feel secure in our history and in our future

Established in 1971, and rebranded as Delaware Life in 2013, we have a strong balance sheet and a highly talented and experienced employee base with deep annuity and asset management expertise to proudly serve you and your clients and honor all the company's policyholder commitments.

A.M. Best	S&P Global Ratings	Fitch
A-	A-	A-
Excellent ability to meet ongoing obligations to policyholders	Strong financial security commitments	Strong capacity to meet policyholder and contract obligations

Ratings are as of 7/14/2026. Financial Strength Ratings above reflect the creditworthiness of the Delaware Life Insurance Company. They do not apply to the principal amount or investment performance of the separate account or underlying investments of variable products. A.M. Best Company assigns ratings from A++ to S based on a company's financial strength and ability to meet obligations to contract holders. A- (Excellent) is the 4th highest of 16 ratings. For more information about the rating, see: www.ambest.com. Standard & Poor's assigns ratings from AAA to D based on a company's financial ability to meet financial commitments. A- (Strong) is 7th out of 21 possible ratings. For more information about the rating, www.standardandpoors.com. Fitch assigns ratings from AAA to C based on a company's financial strength. A- (Strong) is the 7th highest of 19 ratings. For more information about the rating, see: www.fitchratings.com. These ratings are provided for informational purposes only. Ratings are solely the opinions of the rating agencies. Delaware Life Insurance Company does not endorse, and accepts no responsibility for, the ratings issued by the rating agencies. Ratings may be changed, superseded, or withdrawn by the rating agencies at any time.

Delaware Life

Annuities are long-term financial vehicles designed for retirement purposes. These policies may not be available in all states, and product features vary by state. The surrender value will not be less than the minimum value required by your state. PrimeStart Bonus 10™ fixed index annuity has age eligibility requirements, minimum premium amounts, systematic withdrawal limits, and qualifying requirements for waiver of withdrawal and surrender charges. For more details, including limitations and exclusions, ask your financial professional or refer to the PrimeStart Bonus 10™ product brochure.

The Enhanced Index Account Options fee (1.0%) is calculated by multiplying the index account value of the associated enhanced index account and an enhancement fee rate at the beginning of the term and is deducted at the end of the term. The initial enhancement fee rate is set at contract issue and guaranteed for the first index term. A new enhanced fee rate will be declared at the start of each subsequent index term.

Fixed index annuities are not securities, do not participate directly in the stock market or any index, and are not investments. It is not possible to invest directly in an index.

Annuities are issued and guarantees are backed by the financial strength and claims-paying ability of Delaware Life Insurance Company (Zionsville, IN). Products, riders, and features may vary by state, and may not be available in all states. This material may not be approved in all states.

This brochure is a general description of the product. Please read your contract and disclosure statement for definitions and complete terms and conditions, as this is a summary of the annuity's features.

This communication is for informational purposes only. It is not intended to provide, and should not be interpreted as individualized investment, legal, or tax advice. To obtain such advice, please consult with your investment, legal, or tax professional.

Delaware Life Insurance Company is authorized to transact business in all states (except New York), the District of Columbia, Puerto Rico, and the U.S. Virgin Islands.

For use with policy forms ICC22-DLIC-FIA, DLIC22-FIA. Policy and rider form numbers may vary by state.

Delaware Life is not an investment advisory firm and does not provide investment advice.
