A bright future is waiting

As you look ahead, there are retirement challenges to consider

- **People are living longer and could outlive their retirement income**
- **Healthcare costs are rising**
- **Market downturns can impact the value of your retirement assets**

The good news is that a well-balanced retirement portfolio can help protect you from these challenges.

Consider taking action for the future with protected income and tax-deferred growth

Adding a fixed annuity to your retirement strategy can provide confidence knowing your money is protected from market ups and downs because it's not invested in the stock market.

The Corebridge Pathway Choice annuity is designed for flexibility to help you meet your financial goals with a choice of initial interest rate periods for guaranteed interest earnings.

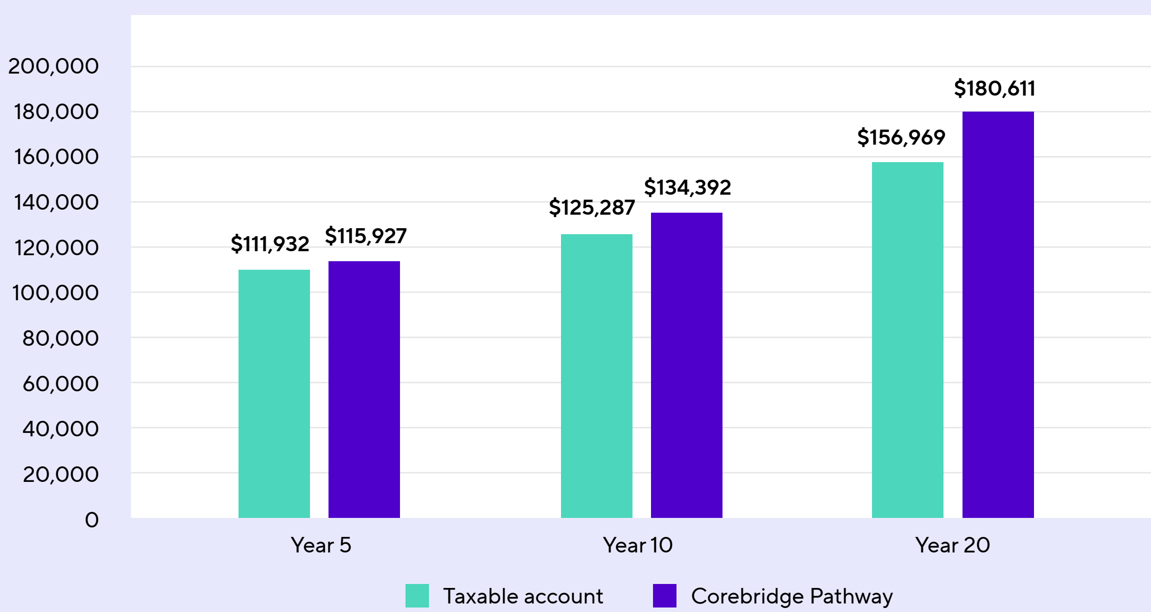
Keep more of your money working for you

Your Corebridge Pathway Choice guaranteed fixed rate of interest helps grow your money tax-deferred. Over time, your money compounds at a faster rate than it would in a taxable account.

Here's why

- With a fixed annuity you won't have to pay current taxes on any interest or earnings until money is withdrawn
- Money that would have gone to pay federal income taxes stays in the account earning interest

The power of tax-deferred growth



For illustrative purposes only. Performance is not guaranteed. This hypothetical example assumes a $100,000 single premium earning 3%, during a 20-year period, 24% income tax rate and no withdrawals.

Does not reflect the performance of any particular product and does not take into account the differences in risk, maturity and credit quality when comparing identical tax-deferred and taxable yields. Results will vary.

Keep in mind, if you take money out of the annuity before age 59½, the IRS considers the withdrawal a "premature distribution" and you may be required to pay a 10% federal early withdrawal tax penalty. A product early withdrawal charge and market value adjustment (if applicable) may also apply.

Sometimes life changes, we have you covered

Built-in protection

- After the first contract year, you may take multiple penalty-free withdrawals (without charges) eachcontract year, not to exceed a total of 10% of the previous anniversary contract value.

Start income when the time is right for you

When you're ready for retirement income, the Corebridge Pathway Choice annuity provides an option to permanently convert your contract value into a series of guaranteed income payments. This is called the annuitization process. Keep in mind, once you annuitize the contract, you will have guaranteed income for the period you choose but will no longer have access to the contract value.

The amount of each guaranteed income payment is based on the payment option you choose:

- Life annuity: Lifetime payments guaranteed
- Joint and Survivor Life annuity
- Joint and Survivor Life annuity with 120 or 240 months guaranteed
- Life annuity with 120 or 240 months guaranteed
- Fixed amount: Fixed payments continue for a minimum of five years and maximum of 30 years

Understanding fixed annuities

A fixed annuity is a contract between you and an insurance company that, in exchange for your premium (earning a fixed rate of interest), offers a stream of guaranteed income payments.

Annuities are long-term products designed for retirement.

Retirement accounts such as IRAs can be tax deferred regardless of whether or not they are funded with an annuity. The purchase of an annuity within an IRA does not provide additional tax-deferred treatment of earnings. However, annuities do provide other features and benefits.

Withdrawals may be subject to federal and/or state income taxes. A 10% federal early withdrawal tax penalty may apply if taken before age 59½ in addition to ordinary income tax. Partial withdrawals may reduce benefits and contract value.
